The proposed project has been carefully designed to retain the scale and character of the site. Along the property lines abutting the existing residential properties on Shade Street the existing perimeter trees and plantings will be retained, where possible. Proposed plantings are intended to reinforce and complement the existing landscaping and provide a natural and proper setting for the new building(s). Plant materials will be evergreen and deciduous with ornamental plantings in the vicinity of the new building(s) and walkways. Plant materials will be sized to respond to and enhance the proposed building(s) and landscaping.

Landscape planting will be provided in general as shown on Sheet C4.1 Landscape Planting Plan A and Sheet C4.2 Landscape Planting Plan B. The Definitive Site Development and Use Plan to be presented to the Special Permit Granting Authority will provide greater detail.

- (ii) A driveway on one lot may lead to a parking space or loading bay on another lot, or straddle the lot line and serve a parking space or loading bay on two or more lots without a special permit so long as a binding agreement, satisfactory in form to the Town Counsel, is executed and filed in the Registry of Deeds of Middlesex County prior to the issuance of a certificate of occupancy for the affected building(s).

Landscaping and screening shall be as shown on Sheets C4.1 and C4.2 of the Preliminary Site Development and Use Plan.
